

JACQUELINE NEUBERT

Contact person

Jacqueline Neubert has been a Senior Analyst at the permitto Group since 2012. With over 20 years of experience in the application, implementation and further development of repertory grid processes, she supports our clients from the customized translation of relevant organizational issues and concerns to the analysis, evaluation and presentation of the most important findings. She is "at home" in almost all congrid® contexts. As part of organizational, team and customer surveys, she has conducted over 1000 interviews (always with the necessary sensitivity) and carried out numerous evaluations of results, including in the banking sector, in order to further develop high performance teams and provide targeted support.

In addition, Jacqueline has been working with our IT specialists since 2014 to design and implement tailor-made feedback systems for our customers with great success.

Jacqueline is a qualified psychologist specializing in occupational, organizational and health psychology. She is co-author of various publications on the Repertory Grid Method and a congrid® certifier.
